SHANDONG FUSHENG SAFETY PROTECTION PRODUCTS CO.,LTD

COMPANY PROFILE

Established in 2003, Shandong Fusheng Safety Protection Products Co., Ltd has been engaged in the safety shoes production for more than 20 years. Covering 40,000 square meters, the main products are work boots, slip resistant shoes and military boot with 6 injection produce lines including 2 of the DESMA lines, and 2 cements lines. The yearly capacity is 1.8 million pairs, the products are exported

Our own independent testing room is the member of the SATRA now. We're qualified with ISO 9001 quality management system certificate and ISO 14001 environmental management system certificate. We have a professional QC team and full sets of testing facilities to ensure superior quality according to CE EN ISO 20345/20347, CSA/ASTM, AS/NZS standard for different market. d to the United States, Europe, South Africa, South America and Asia.

In 2024, the company has built a modern factory with an area of 16,800 square meters to better serve customers. FuSheng will consistently pursue excellence and zero defect products and insists on the policy of "professional is born with concentrated" to keep moving forward. Our company always implements the principle of customer first and provides customers with high-quality products and services.

EUROPEAN PPE Standards System			ASTM Standards System	
EN ISO 20345:2022+A1:2024			ASTM F2413-24	
Category	Basic requirements	Additional requirements		
SB	Class I or II	Basic requirement, Toe protection above 200 Joules	I	Impact resistance
S1	Class I	as SB, plus Closed heel area Energy absorption of seat region Antistatic	C	Compression resistance
S2	Class I	as S1, plus: Water penetration and absorption	Mt	Metatarsal protection
S3 (metal insert type P) or S3L (non-metal insert type PL) or S3S (non-metal insert type PS)	Class I	as S2, plus: Perforation resistance according to type Cleated outsole	Cd	Conductive property
S4	Class II	as SB, plus Closed heel area Energy absorption of seat region Antistatic	EH	Electrical hazard
S5 (metal insert type P) or S5L (non-metal insert type PL) or S5S (non-metal insert type PS)	Class II	as S4, plus: Perforation resistance according to type Cleated outsole	SD	Static dissipative property
S6	Class I	as S2, plus Water resistance of the whole footwear	PR	Puncture resistance
S7 (metal insert type P) or S7L (non-metal insert type PL) or S7S (non-metal insert type PS)	Class I	as S3, plus Water resistance of the whole footwear	SR or SRO	Slip resistance
NOTE1 For ease of marking, this table categorizes safety footwear with the most widely used combinations of basic and additional requirements.				
NOTE2 If the footwear is not tested against slip resistance requirement, it is marked with symbol 'Ø'.
